React Front-End Developer · Node.js · APIs · Product-Minded Engineering

PROFESSIONAL SUMMARY

React-focused frontend developer with a background spanning software engineering, MBA-level project management, and cross-functional operations. I build clean, scalable web interfaces with strong component architecture, responsive UI, and real-world API integration. My product and business background gives me a broader perspective on how software decisions affect users and stakeholders — I don't just build features, I think about why they matter.

TECHNICAL SKILLS

Frontend: React, JavaScript (ES6+), HTML5, CSS3, React Router, Vite

Backend & Data: Node.js, Express.js, MongoDB, PostgreSQL, bcrypt, REST APIs, EJS

Tools: Git, GitHub, npm, VS Code, Helmet.js

PM Tools: Jira, MS Project, Agile/Scrum, Backlog Management

Academic background: C++, Java, C# (B.Sc. & M.Sc. Software Engineering coursework)

PORTFOLIO & PROJECTS

React Portfolio — omar-alzubi-portfolio.netlify.app

- Built with React 18, Vite, and React Router v6 — lazy loading, Suspense, cross-page hash navigation
- Accessible component architecture with BEM CSS, ARIA attributes, focus management, and responsive design
- Web3Forms contact form with loading, success, and error states — environment variables for key management

Puff of Air — Weather App · puff-of-air.onrender.com

- Node.js/Express with clean separation of concerns — config, middleware, services, and routes in separate layers
- OpenWeatherMap Geocoding API, Helmet.js security headers, rate limiting, and request logging

Daily Journal — Full-Stack Blog · daily-journal-fuvd.onrender.com

- Express.js and PostgreSQL — full CRUD with bcrypt password hashing for secure post authentication

ToDoList — Task Manager · to-do-list-app-m7vn.onrender.com

- Node.js, MongoDB, and Mongoose — custom lists, item editing, and persistent data storage

Continuing Education — 2024

- The Complete JavaScript Course — Jonas Schmedtmann (Credential: UC-0949ae5f)
- The Complete Full Stack Web Development Bootcamp — Dr. Angela Yu (Credential: UC-aec72398)
- Graduate-level coursework at Kent State University: Algorithms, Data Structures (C++), Operating Systems

PROFESSIONAL EXPERIENCE

Operations & Coordination Manager | Family Business (Real Estate) — Amman, Jordan | Jan 2023 – May 2026

- Managed logistics, scheduling, and documentation across active property transactions
- Coordinated vendor evaluation, procurement, and stakeholder communication across multiple simultaneous projects

Project & Operations Manager | Delphos Wireless — Ohio, USA | May 2018 – Dec 2022

- Owned end-to-end delivery of operational initiatives — backlog prioritization, stakeholder alignment, and release execution
- Translated business needs into requirements and delivery plans using Jira and MS Project
- Drove resolution of customer-impacting issues by defining root-cause requirements and building cross-team solutions

Customer Service Representative & PM Support | StarTek — Ohio, USA | Oct 2017 – May 2018

- Supported cross-functional project coordination alongside PM team — requirements gathering, timelines, and stakeholder communication
- Contributed to backlog documentation and progress tracking in a fast-paced Agile environment
- Provided customer-facing support while actively developing project management skills

Facility & Operations Manager | Ashland University — Ohio, USA | Aug 2015 – Oct 2017

- Progressed from Equipment Checkout and Customer Service to Facility Manager through two internal promotions
- Managed staff, risk assessment, policy compliance, and weekly reporting to university leadership

Software Engineer | ITAC — Amman, Jordan | Jun 2011 – Apr 2013

- Developed software solutions using C#, Java, and OOP principles across full SDLC — requirements through release
- Collaborated with users and developers to define system flows, data structures, and solution requirements

EDUCATION

MBA — Project Management & Management Information Systems · Ashland University, Ohio

M.Sc. — Software Engineering · De Montfort University, United Kingdom

B.Sc. — Software Engineering · Philadelphia University, Jordan
